

CHALLENGE #1: GOAL

Goals:

- Provide accurate, dependable, and easily available information regarding astronomy and space exploration.
- Through well-researched information, create a learning atmosphere for both novices and enthusiasts.
- Ensure a responsive and user-friendly website design for seamless navigation across desktop and mobile devices.

Plans:

- Organize content into categories, including astronomy guides and stargazing tips, space exploration news and missions, cosmic phenomena explanations, and educational resources.
- Implement a responsive website design to provide an optimal viewing experience across different devices.
- Incorporate visually appealing graphics, images, and videos to complement and enhance the content using CSS and what I learned in w3schools.
